

Hello everyone, I hope you and your families are staying safe and keeping occupied during these uncertain times. I am here to speak about what difference I would make if elected as deputy. My main priority if elected is to use our platform and connections to fund campaigns created by students or charities outside the school. Year after year we have managed to fund thousands for charities and if elected I will make sure we carry this on and encourage every student to use their voice. I want to cast votes and invite charities suggested by students and create a fundraiser each month for the voted cause. I also want to take ongoing traditions like Pink Day to the next level and add more activities for each event. I believe we should use the power of our school to help the local and school community, and if you vote for me I will make sure we spread kindness.
