What is National Careers Week?

- It's a chance to focus on careers guidance and education
- It helps you to understand, realise and fulfill your career goals
- It helps you to feel confident about the future and focused on what you need to do now

The Pandemic has affected the world of work. Many furloughed, jobs lost and businesses closed. However we have all been in it together as one.

Here are some of the amazing people who have been helping us since the world has changed by the COVID pandemic:

- **Doctors and nurses** who have been caring for people in hospital and at surgeries

- **Scientists** working on a vaccine to help keep us safe
 - **Teachers** helping us learn online and in schools
 - **Delivery experts** like postal workers and people delivering food and medicines
 - **Supermarket workers** keeping the shelves filled in the shops
 - **Care home workers** looking after elderly and vulnerable patients
- Musicians/artists/actors** keeping us smiling and entertained.

The world of work has started to move again.

What should you be doing to fulfil your career goals and feel confident about the future?

You should...

Reflect

What makes you, you? Think about what is important to you. Consider the skills you have been developing. What are your strengths and weaknesses?

Be Curious & Investigate Your Options

Find out about people's jobs and careers. Research GCSE/A Level subjects and vocational qualifications. Different qualifications lead to different job opportunities.

Get Involved

Actively get involved! Make the most of different opportunities and learn from setbacks.

You should...

Look for opportunities to gain experience

There are lots of opportunities in school to help out. A part time job or volunteering is a great way to gain work experience. There are also virtual work experience schemes which school can direct you to.

Be mindful of your community

Look to help others to achieve. Your family, friends and your school can all benefit from your time and attention. Involve them in what you want to achieve and be involved in helping them.

Learn about issues that shape the world

News on the TV is more reliable than some of news sources you find online. Find out what is going on in the world around you.

Below is a list of essential skills employers have identified for jobs in the future.

- ❑ **Curiosity and imagination:** asking good questions
- ❑ **Accessing and analysing information:** understanding the facts
- ❑ **Adaptability:** being able to change constantly
- ❑ **Initiative and Entrepreneurship:** being creative and business-minded
- ❑ **Leadership:** teamwork and leadership
- ❑ **Communication:** being understood
- ❑ **Critical Thinking and Problem Solving:** being able to see solutions

Think about how you have been developing these skills this year?

Virtual Careers Fair

7th - 12th March 2022

The Virtual Careers Fair will go live today!

Visit <https://ncw2022.co.uk/>

No registration required.
Tons of opportunities for you to explore.

More information and links will be posted
on Google classroom and in the Friday
News.

Get involved! Your journey starts now!
