12 March 2020

Dear parents

I am writing with an update on Covid-19. The school has been informed that a sixth form student's father has tested positive for Covid-19. The student was in school on Monday but has not been in school since then, and will not be in school until the quarantine period is over. The student had no symptoms of the illness.

NHS 111 informed us that, since the student has no symptoms, it is extremely unlikely that they will have infected anyone. There is no need to close the school.

We have not received any other reports of students or family members with the illness. No member of school staff is unwell with Covid-19.

School staff and governors are in regular contact about the measures we must put in place to keep our school community as safe as possible. These include emphasising the importance of regular hand-washing, preventing visitors coming into school from affected areas and making sure that parents and students have read the advice from Public Health England. We are also making plans for any future developments, based on government advice.

Elizabeth Kitcatt - Headteacher
