

# CSG Classics Department:

There's not enough space here to display all of the work, especially the written work, which has been completed so well since school closed. Here's a taster of some of the brilliant effort going into this new kind of learning. Well done, Classics students, for being wonderfully creative learners!

# Year 8 Classics: Caecilius' cena!

## Roman Dinner Party Invitations

Here are just SOME of the amazing invitations produced by Year 8 in lockdown before the Easter Holidays...

### Caecilius' Cena!

TIME: 6:00  
at my luxurious villa

**BYOG!**  
[Bring your own grapes]

here is an image of my villa and you are all invited by me and my many slaves

The party will be hosted in my triclinium which holds 7 couches for all of you fine senators to dine on. Each man shall have his own personal slave to feed him. The walls of my divine triclinium are one of a kind the art on my walls was created by the famous artist, Phidias and my tiles were designed by my good friend Polykleitos. I hope you enjoy admiring my triclinium and the rest of my villa but remember:

BE there,

## The Route of Odysseus' Odyssey

Jana

## Odysseus journey:

Where Odysseus was in the beginning of the story, somewhere in Ionia, Greek coastal region of Anatolia.

King Alcinous, the king of the Phaeacians, in Scheria in Phaeacia, where Odysseus

Him and his people lived found a safe haven.

Odysseus set sail for home. After arriving he staggered up a slope into the sea and the sand. As he fell instantly fast asleep, he was found by the daughter of King Alcinous. She took him in and helped him, she let him clean himself and King Alcinous fed him with meat, bread and water.

After Odysseus and his men left the island of the Cyclopes they stopped at Aeolia, the island of Aeolus the wind god. Aeolus treated Odysseus very kindly and gave him a bag of winds. The bag had all of the west winds bundled up in it and was not to be opened until they got back to Ithaca. There was no problem though. Odysseus' men were curious of what was in the bag. Thinking it was gold that Odysseus was keeping to himself, they opened the bag before arriving at Ithaca, which made the journey back home longer and harder.

## Odysseus had very clever ideas throughout the story.

1. He helped the Greeks sneak into Trojan's camp via the Trojan horse. The Trojans took this giant wooden horse as a peace and gift offering. When the Trojans were in a drunken stupor, the Greeks came out of the horse and killed the Trojans and invaded the country, winning the battle of the Trojan War.
2. Another example of Odysseus's intelligence was when he outsmarted Polyphemus by telling the cyclops his name was "Nobody." He also had the plan to carve a giant stake out of a tree in order to blind the cyclops, which enabled him and his men to be freed from Polyphemus's cave via being led to the underbelly of the cyclops's sheep.
3. When it came time for Odysseus and his men to cross paths with the Sirens, Odysseus arranged a plan to save everyone. He laid beeswax over his men's ears so they were unable to hear the sweet song of the Sirens. Meanwhile, Odysseus had his men tie him to a mast on the ship so as to not allow Odysseus to die due to the Sirens' song.
4. After reaching Ithaca after having been gone for 20 years, Odysseus, with Athena's help,
